

KIM DIXON

Ms. Dixon began her training in ISTD Ballet, Tap, Modern, Jazz and AFSA Acrobatics at the age of six in North Vancouver. In the past two decades, she has graduated from SFU with a BFA in contemporary dance, studied a wide variety of contemporary techniques in Ghana, Brazil and the US. Ms Kim has participated in the American Dance Festival in North Carolina and New York as well as performed herself as a company member of Lamondance in their 2nd season. Ms. Dixon has her Licentiate in Modern Theatre from the ISTD and is currently working toward her Fellowship. As a teacher, Ms. Kim has been successfully entering students into Modern and Acrobatics exams for the past number of years. In addition to her teaching accomplishments, Kim has worked with many well-known contemporary choreographers, modern examiners and dancers from around the world. A choreographer herself, her pieces have been performed across North America and Europe at various festivals and galas where they received recognition for innovation and creativity. She recently was invited to choreograph the opening number for the BCADC in Prince Rupert and worked with team Canada for the IDO worlds in Poland fall of 2019. Having studied all the styles of dance, Kim believes strongly in versatility and encourages young dancers to embrace a wide diversity of dance genre and technical training. It is her pleasure and passion to be able to invest in the next generation of artists so that they might reach their potential and demonstrate the necessity of performing arts in our society.
